

Telescopic Grandstand / Bleacher Seating System

We design, produce and install telescopic grandstand seating system. outdoor grandstand & indoor grandstand are fixed grandstands and tilting grandstands suitable to satisfy the requirements of Public Administrators, Technicians and Sport men.

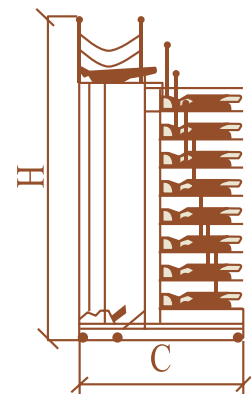

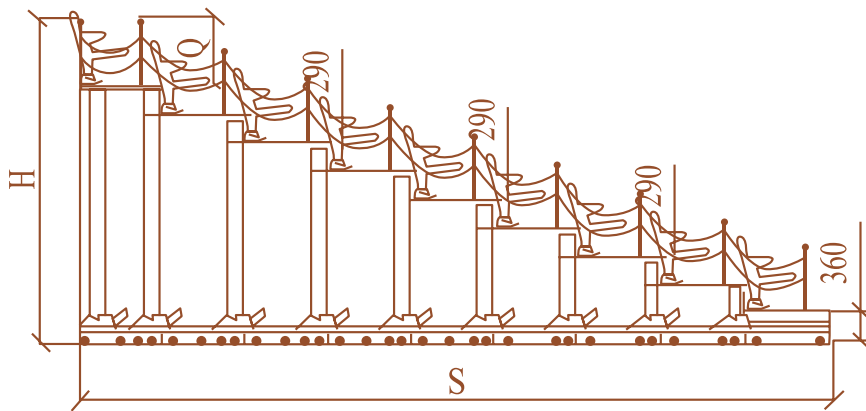

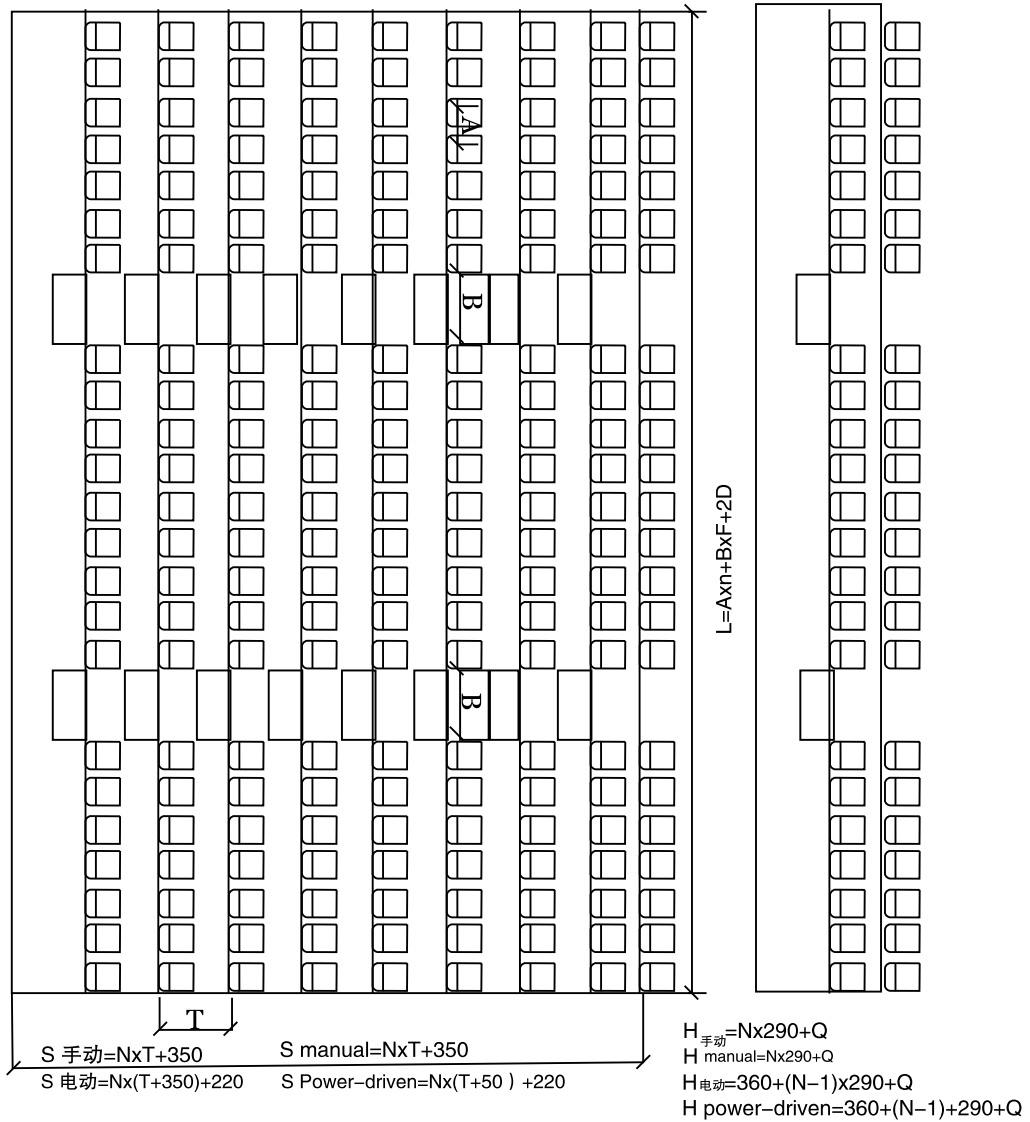

We transform small sportive facilities into multipurpose halls or in a simple way, we provide the playing area with seating places for the spectators in complete accordance with technical and standards restraints.

Telescopic seating system can be built with frontal handrail, lateral, frontal or eventually rear gateways. careening can be done using fireproof marine plywood panels class 1 for vertical.

Telescopic grandstand with entries from the top or from the playing area, Stalls seating places with tilting backrest. The grandstand can be totally or partially opened, eliminating the entrances from the top, in order to respect the free areas required for the basketball or football.

An Layout of telescopic seating system in project

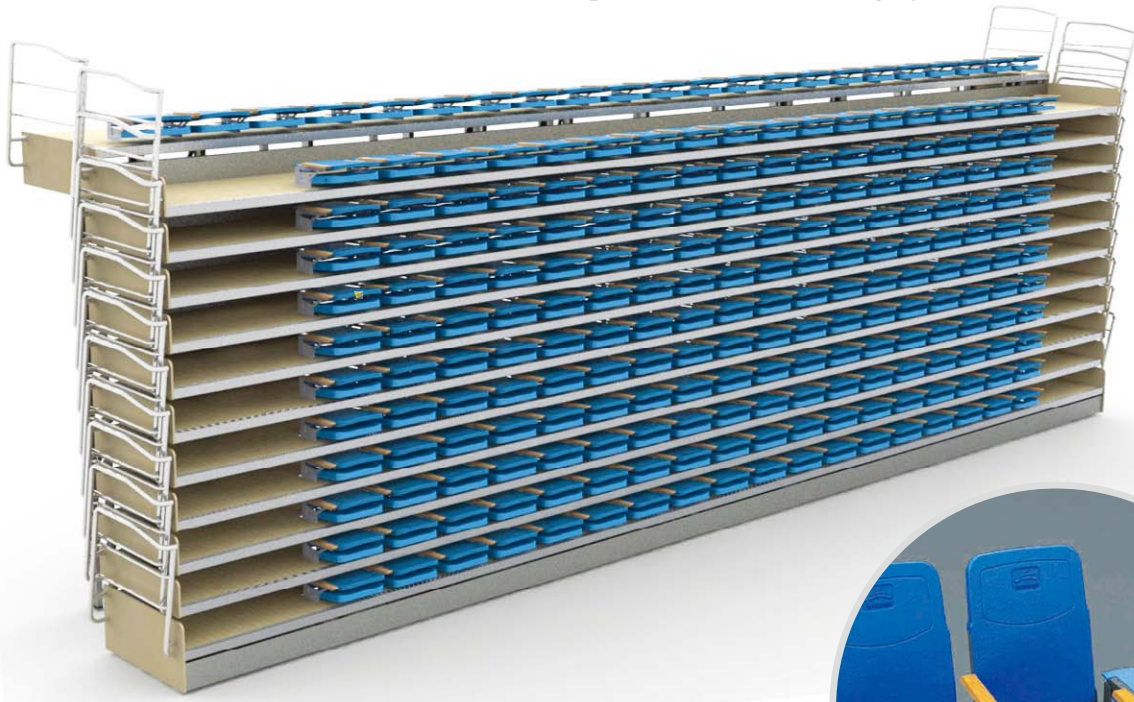

$C_{\text{手动}} = T + 350$ $C_{\text{manual}} = T + 350$
 $C_{\text{电动}} = T + N \times 50 + 220$ $C_{\text{Power-driven}} = T + N \times 50 + 220$

D-Thickness of railing n-Number of row

n=Number of single row chair
